

Autonomous vs Non-autonomous Vehicle

The Paradigm shift into autonomous vehicles

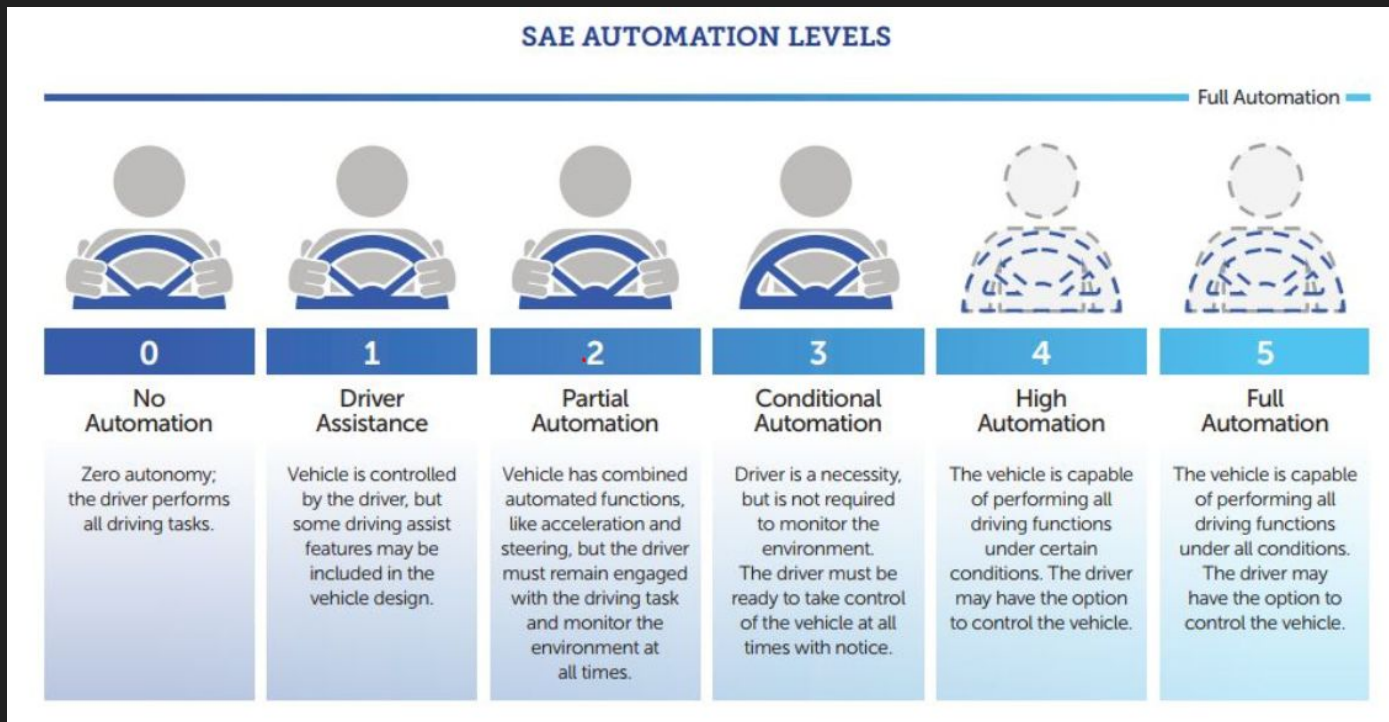

Yagel Kaidar 3/16/19

It starts with Car Insurance

Autonomous vehicles are never drunk, drowsy, or distracted

Human Driver VS Autonomous Driver

Adjusted Insurance

Social Impact

Financial Risk of driving a non-autonomous vehicles will be higher compared to driving an autonomous vehicle.

It'll will be too risky to drive a non-autonomous vehicle

People will be scared to drive because they don't want to crash into an autonomous vehicle

Shift to autonomous vehicle

WeAid

- Supply insurance to non-driverless vehicles
 - Higher rates @ the market

Good Drivers

Target bad drivers to drive better

The Model

Good = Good

Good Dollar

Good drivers get GoodDollars
